The head contour, pulley diameter, bucket size, and belt speed have been carefully selected to maximize capacity and minimize product damage. This elevator follows the guidelines of the American Peanut Sheller’s Association, Inc. and the U.S. Department of Agriculture.

Available in powder coated carbon, stainless, or galvanized steel.
NOTE: Unit application, location and specifications determine the type, quantity and/or placement of electrical, electrical safety or other safety controls required. Whether these controls are supplied by Universal Industries or another supplier, all OSHA safety and health standards, the National Electrical Code and local codes must be met and followed. Because we constantly strive to provide the finest material handling equipment, establishing industry standards, specifications must remain subject to change without notice.
